Mr. Bernard L. Raney
Chief of Inspection Bureau
Division of State Fire Marshal
366 E. Broad St.
Columbus, Ohio 43215

Dear Sir:

In reply to your letter of Oct. 5, 1967, we are forwarding plans for Chemical Service Corp. for above ground installation of storage tanks in a diked area. Chemical Service Corporation is a division of Obitts Chemical Co. and all this property is owned by Dorothy and Russell Obitts and considered one parcel of land. To my knowledge, we are conforming with all the rules and regulations set forth in the Fire Prevention Code. Also at our expense, we are including an aerial picture taken in 1966 showing the whole area including Harshaw Chemical Co.

Our former plant located at 134 Abbe Road was moved to its present location (142 Locust St.) in 1961.

Thank you for your kind co-operation. If I have omitted anything please let me know.

Very truly yours,

Russell W. Obitts, President

Subject: Another Set Of Plans For Obitts Chemical Company - 142 Locust
Street, Elyria, Ohio, Lorain County

Dear Sir:

I received the letter and plans that were sent to me on June 12, 1967.

However, I have not received the other plans that you were supposed to prepare for me. Please send me the new set of plans, and fill out the enclosed 63-64-A Application Forms; and, please return them to me for my approval.

On the plans, please show the barrel storage, full and empty, classification of fluid I, II, III, number of barrels in piles, distances from each other, buildings, lot lines, etcetera, for my approval. I understand that there is a natural gradual slope from east to west on this property; and that you had been advised to have an earthen dike from south to north on top of the bank of the east branch of the Black River. I want all of this information indicated on the plans.

Please send me all of the information about this place.

Is the plant on 134 Abbe Road, Elyria, Ohio, still in business?

I will appreciate your very kind cooperation. Thank you!

Yours very truly,

Bernard L. Ramey
